Geniece – Here are a few more things that might be helpful to you.

- Briefing that I did for Tina and others on the plan to peer review the Tool. The second to last slide provides the schedule.
- Distiller Download – this is the list of references that I reviewed for updating the tool; it has 6 tabs
 - Full Text review contains all the references reviewed
 - 4 tabs that summarize the data for the various media (dust, soil, indoor and outdoor air) and 1 tab for dietary exposure
- New References – this is the results of my targeted internet search
- Tool – I attached 3 versions:
 - Original 10-2-09, Version 1.1
 - Updated 11-2-10, Version 1.2
 - Version 1.2, revised 7-24-17 (minor revision; see Tab K for details)

When I reviewed the papers for this project, I highlighted the pdfs to focus on the information of interest. I will send the references to you in separate (multiple) emails. I won't send you the updated Tool and SR document yet as I assume there will be additional changes to them as I receive more comments. Linda
